f. Authority to collect information. A Federal law, Executive Order of the President (EO), or DoD requirement must authorize the collection and maintenance of a system of records.

(1) If this system has a Privacy Act SORN, the authorities in this PIA and the existing Privacy Act SORN should be the same.

(2) Cite the authority for this DoD information system or electronic collection to collect, use, maintain and/or disseminate PII. (If multiple authorities are cited, provide all that apply.)

(a) Whenever possible, cite the specific provisions of the statute and/or EO that authorizes the operation of the system and the collection of PII.

(b) If a specific statute or EO does not exist, determine if an indirect statutory authority can be cited. An indirect authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.

(c) DoD Components can use their general statutory grants of authority ("internal housekeeping") as the primary authority. The requirement, directive, or instruction implementing the statute within the DoD Component should be identified.

g. Summary of DoD information system or electronic collection. Answers to these questions should be consistent with security guidelines for release of information to the public.

(1) Describe the purpose of this DoD information system or electronic collection and briefly describe the types of personal information about individuals collected in the system.

The purpose of this database is to collect supplied information from qualified adjunct faculty members to make preparations for their overseas travel assignments as well as maintain a record of their qualifications for participation in future engagement programs. This data will also be used as a resource for future travel and training engagement assignments, as a record of adjunct assignments and a basis to identify training requirements for the adjunct faculty.

The types of personal information collected is as follows: full name, date and place of birth, SSN, home and work addresses, work, fax, home and personal cell phone numbers, US government credit card number, personal and alternative e-mail addresses, pay grade, military status (e.g., military rank, branch of service, retired and reserves), security clearance and current status, passport information, language capability, self-rating/level of expertise and abilities, training completed (e.g, trafficking in persons, human rights, code of conduct, etc.), biography, and professional references.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

The primary risk with this database would be the disclosure of PII to an unauthorized source. To address this potential risk, records are maintained in a controlled facility. Physical entry is restricted by the use of locks, guards, and is accessible only to authorized personnel. Access to records is limited to person(s) responsible for servicing the record in performance of their official duties and who are properly screened and cleared for need-to-know. Access to computerized data is restricted by centralized access control to include the use of Common Access cards (CAC), passwords (which are changed periodically), file permissions, firewalls, and intrusion alert systems, including the use of a "block out" restriction feature when viewing SSNs.

h. With whom will the PII be shared through data exchange, both within your DoD Component and outside your Component (e.g., other DoD Components, Federal Agencies)? Indicate all that apply.

i. Do individuals have the opportunity to object to the collection of their PII?

Yes

No

(1) If "Yes," describe method by which individuals can object to the collection of PII.

Individuals have the option of providing their PII data or not -- the collection is strictly voluntary. Moreover, individuals may contact DIILS and request to have all their PII removed from the system if they so desire.

(2) If "No," state the reason why individuals cannot object.

j. Do individuals have the opportunity to consent to the specific uses of their PII?

Yes

No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

The PII requested is specifically restrictive to the nature of the mission. Potential Adjunct Instructors can not restrict the use of their PII if they are requesting to participate in DIILS overseas engagement programs.

k. What information is provided to an individual when asked to provide PII data? Indicate all that apply.

Privacy Act Statement

Privacy Advisory

Other

None

Describe each applicable format.

The Adjunct Faculty Application form used to solicit the PII data from each potential applicant contains the appropriate Privacy Act Statement. The statement outlines the legal authority, purpose, routine use for the collection, as well as, whether or not the information is voluntary and the effects of not providing all or any part of the requested information.

NOTE:

Sections 1 and 2 above are to be posted to the Component's Web site. Posting of these Sections indicates that the PIA has been reviewed to ensure that appropriate safeguards are in place to protect privacy.

A Component may restrict the publication of Sections 1 and/or 2 if they contain information that would reveal sensitive information or raise security concerns.
