Transmittal No. 25-34

Israel – Munitions and Munitions Support

WASHINGTON, February 28, 2025 - The Secretary of State has made a determination approving a possible Foreign Military Sale to the Government of Israel of Munitions and Munitions Support and related equipment for an estimated cost of \$2.04 billion. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Israel has requested to buy thirty-five thousand five hundred twenty-nine (35,529) MK 84 or BLU-117 General Purpose (GP) bomb bodies, or a combination of both; and four thousand (4,000) I-2000 Penetrator warheads. The following non-MDE items will also be included: spare parts, consumables, accessories, and repair and return support; transportation support; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$2.04 billion. Deliveries are estimated to begin in 2026.

The Secretary of State has determined and provided detailed justification that an emergency exists that requires the immediate sale to the Government of Israel of the above defense articles and defense services in the national security interests of the United States, thereby waiving the Congressional review requirements under Section 36(b) of the Arms Export Control Act, as amended.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

The proposed sale will improve Israel's capability to meet current and future threats, strengthen its homeland defense, and serve as a deterrent to regional threats. Israel will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be General Dynamics, located in Garland, TX; Ellwood National Forge Company, located in Irvine, PA; and McAlester Army Ammunition Plant, located in McAlester, OK. There is a possibility that a portion of this procurement will come from U.S. stock. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military-Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
