Transmittal No. 21-46

Jordan – Guided Multiple Launch Rocket Systems (GMLRS) Alternate Warhead (AW) Unitary Rocket Pods

WASHINGTON, February 8, 2022 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Jordan of Guided Multiple Launch Rocket Systems (GMLRS) Alternate Warhead (AW) Unitary Rocket Pods and related equipment for an estimated cost of \$70 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Jordan has requested to buy one hundred fourteen (114) Guided Multiple Launch Rocket System (GMLRS) Unitary High Explosive (HE) Tri-Mode Fuze (GMLRS-U) (M31) Rockets; and one hundred fourteen (114) Reduced Range Practice Rockets (RRPR). Also included is support equipment; publications and technical data; personnel training and equipment; systems integration support; U.S. Government and contractor engineering technical and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$70 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a Major Non-NATO Ally that is an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Jordan's capability to meet current and future threats on its borders and provide greater security for its economic infrastructure. This sale will provide Jordan with a long-range precision artillery support capability that will significantly improve U.S.-Jordan interoperability and provide for the defense of vital installations. Jordan will have no difficulty absorbing these additional systems into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Missile and Fire Control, Dallas, TX. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any additional U.S. Government or contractor representatives to Jordan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. The description and dollar value is for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
