Transmittal No. 23-34

Norway – C-130J Sustainment

WASHINGTON, April 26, 2023 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Norway of sustainment and services for C-130J aircraft beyond Block 6 through 2028 and related equipment for an estimated cost of \$166 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Norway has requested continued sustainment and associated services for four (4) C-130J aircraft beyond Block 6 through 2028. Included are Joint Mission Planning Systems (JMPS); aircraft components, spare parts, consumables, and accessories; repair and return support; aircraft support and support equipment; unclassified publications and technical documentation; software delivery and support; unclassified Computer Program Identification Number (CPIN) systems; telecommunications support; minor modifications, maintenance and maintenance support; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistical and program support. The estimated total cost is \$166 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve Norway's capability to meet current and future threats by bolstering operational readiness while enhancing air and defense capabilities with a modernized fleet. Norway already has C-130Js and will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Marietta, GA. The purchaser typically requests offsets. Any offset agreement would be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Norway.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
