Transmittal No. 23-37

Poland – Sniper Advanced Targeting Pods

WASHINGTON, May 9, 2023 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Poland of Sniper Advanced Targeting Pods and related equipment for an estimated cost of \$124.7 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Poland has requested to buy thirty-four (34) AN/AAQ-33 Sniper Advanced Targeting Pods (ATP) with Shipping Containers. Also included are system support and support equipment; spare parts, consumables, accessories, and repair and return support; integration and test equipment and support; unclassified software delivery and support; unclassified Computer Program Identification Number (CPIN) systems; unclassified publications and technical documentation; personnel training and training equipment; U.S. Government and contractor engineering, technical and logistics support services; and other related elements of logistical and program support. The estimated total cost is \$124.7 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve the tactical effectiveness of the FA-50 fighter aircraft that Poland is buying from the Republic of Korea by enhancing its abilities to identify targets, track, and engage from a standoff distance; it will also increase interoperability with U.S. and NATO forces. Poland will have no difficulty absorbing these articles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Orlando, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
