Transmittal No. 16-49

**Government of Egypt – Common Missile Warning System (CMWS)  
for AH-64E Apache, UH-60 Blackhawks, and CH-47 Chinook Helicopters**

WASHINGTON, Oct. 7, 2016 - The State Department has made a determination approving a possible Foreign Military Sale to Egypt for Common Missile Warning System (CMWS) for AH-64E Apache, UH-60 Blackhawks, and CH-47 Chinook Helicopters and related equipment, training, and support. The estimated cost is \$81.4 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on October 6, 2016.

The Government of Egypt has requested a possible sale of:

**Major Defense Equipment (MDE):**

Sixty-seven (67) AN/AAR-57 Common Missile Warning Systems (CMWS).

This request also includes the following Non-MDE: OCONUS Installation/Integration, Installation Mounting Kits, Countermeasure Dispenser Test Set AN/ALM-294, Technical Assistance, U.S. Government Training and OCONUS Contractor Training, publications and technical documents, quality assurance and other related elements of logistics and program support. The estimated cost is \$81.4 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner that has been and continues to be an important force for political stability and economic progress in the Middle East.

The proposed sale of the CMWS will equip the Egyptian Air Force's fleet of multi-mission helicopters with a detection system for infrared missile threats. Egypt will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be BAE Systems and DynCorp. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of two (2) U.S. Government and two (2) contractor representatives to Egypt to support delivery of such equipment, installation and integration, maintenance and to provide technical support and equipment familiarization. Additionally, this program will require multiple trips involving U.S. Government and contractor personnel to participate in technical reviews, training and installation.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, [pm-cpa@state.gov](mailto:pm-cpa@state.gov).
