Transmittal No. 12-69

Israel – Munitions

WASHINGTON, December 20, 2012 – The Defense Security Cooperation Agency notified Congress Dec. 14 of a correction to a possible Foreign Military Sale to Israel of 6,900 Joint Direct Attack Munitions (JDAM) tail kits and associated equipment, parts, training and logistical support for an estimated cost of \$647 million.

In a release of Dec. 10, the primary contractors were misidentified. They are correctly identified below.

The Government of Israel has requested a possible sale of 6,900 Joint Direct Attack Munitions (JDAM) tail kits (which include 3,450 JDAM Anti-Jam KMU-556 (GBU-31) for MK-84 warheads; 1,725 KMU-557 (GBU-31) for BLU-109 warheads and 1,725 KMU-572 (GBU-38) for MK-82 warheads); 3,450 MK-84 2000 lb General Purpose Bombs; 1,725 MK-82 500 lb General Purpose Bombs; 1,725 BLU-109 Bombs; 3,450 GBU-39 Small Diameter Bombs; 11,500 FMU-139 Fuses; 11,500 FMU-143 Fuses; and 11,500 FMU-152 Fuses. Also included are spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering and technical support, and other related elements of program support. The estimated cost is \$647 million.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

The proposed sale of munitions will enable Israel to maintain operational capability of its existing systems. Israel, which already has these munitions in its inventory, will have no difficulty absorbing these additional munitions into its armed forces.

The proposed sale of munitions will not alter the basic military balance in the region.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

The principal contractors will be The Boeing Company in St. Charles, Missouri; KDI Precision Products in Cincinnati, Ohio; ATK (Alliant Tech Systems, Inc.) in Edina, Minnesota; Kaman Dayron in Orlando, Florida; General Dynamics in Garland, Texas; and Elwood National Forge Co. in Irvine, Pennsylvania. There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.
