Transmittal No. 16-20

Qatar- Javelin Guided Missiles

WASHINGTON, May 26, 2016 - The State Department has made a determination approving a possible Foreign Military Sale to Qatar for Javelin Guided Missiles and associated equipment, training, and support. The estimated cost is \$20 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on May 24, 2016.

The Government of Qatar has requested a possible sale of fifty (50) Javelin Guided Missiles (Category I), and ten (10) Command Launch Units (CLUs) with Integrated Day/Thermal Sight (Category III Sensitive) with Container. Also included in this possible sale are: ten (10) Javelin Missile Simulation Rounds, one (1) Enhanced Basic Skills Trainer (EPBST), and twelve (12) Battery, Non-Rechargeable, six (6) Battery, Storage, Rechargeable, Battery Discharger, Battery Charger for #9, and ten (10) Battery Coolant Units. Also included in this possible sale are U.S. Government Technical Information and Assistance and Life Cycle Contractor support (LCCS) for twenty-four (24) months or until funds are exhausted. This support provides for personnel, services, materials, facilities, equipment, maintenance, supply support, Integrated Support Plan, product assurance, and configuration management. The total estimated value of Major Defense Equipment is \$15 million. The overall total estimated value is \$20 million.

This proposed sale contributes to the foreign policy and national security of the United States by helping to improve the security of a regional partner. Qatar is an important force for political stability and economic progress in the Persian Gulf region. This proposed sale strengthens U.S. efforts to promote regional stability by enhancing the defense to a key U.S. ally.

The proposed sale will improve Qatar's capability to meet current and future threats and provide greater security for its critical oil and natural gas infrastructure. Qatar will use the enhanced capability to strengthen its homeland defense. Qatar will have no difficulty absorbing these missiles into its armed forces.

The proposed sale will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Troy, AL. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips by U.S. Government and contractor representatives to travel to Qatar for up to twenty-four (24) months for equipment de-processing, fielding, system checkout, training, and technical logistics support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
