Transmittal No. 16-67

**Taipei Economic and Cultural Representative Office (TECRO) in the United States - SM-2 Block IIIA Standard Missiles and Components**

WASHINGTON, Jun. 29, 2017 -The State Department has made a determination approving a possible Foreign Military Sale to Taipei Economic and Cultural Representative Office (TECRO) in the United States of sixteen (16) Standard Missile-2 (SM-2) Block IIIA All-Up Rounds (AUR), forty-seven (47) MK 93 MOD 1 SM-2 Block IIIA Guidance Sections (GSs), and five (5) MK 45 MOD 14 SM-2 Block IIIA Target Detecting Devices (TDDs) Shrouds. This request also includes Seventeen (17) MK 11 MOD 6 SM-2 Block IIIA Autopilot Battery Units (APBUs) maneuverability upgrades on the GSs, sixty-nine (69) section containers and sixteen (16) AUR containers, operator manuals and technical documentation, U.S. Government and contractor engineering, technical and logistics support services. The total estimated program cost is \$125 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

This proposed sale is consistent with United States law and policy, as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capabilities. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance and economic progress in the region.

The proposed sale will improve the recipient's capability in current and future defensive efforts. The recipient will use the enhanced capability as a deterrent to regional threats and to strengthen homeland defense. The SM-2 Block IIIA missiles and components proposed in this purchase will be used to supplement existing inventories of SM-2 Block IIAs to be used for self-defense against air and cruise missile threats onboard their destroyer-class surface ships. The recipient will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the military balance in the region.

The prime contractor will be Raytheon Missiles Systems Company of Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

It is estimated that during implementation of this proposed sale, a number of U.S. Government and contractor representatives will be assigned to the recipient or travel there intermittently during the program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, [pm-cpa@state.gov](mailto:pm-cpa@state.gov).
